## Professional Summary

Passionate web designer, transitioned to web design in 2018, initially focusing on Shopify shops. Embracing a "Can-Do" attitude, I adapt swiftly to diverse roles. Seven years of global living shape a unique perspective, guiding thoughtful decision-making. Committed to continuous learning, I stay updated on tech trends for efficient solutions. Learning is my journey, and I'm on it with genuine enthusiasm! 🚀 Open to discussing my broad range of experiences.

## Experience

### Founder & AI Strategist at RekAI

Self-employed, Taunton, United Kingdom & Budapest, Hungary

April 2023 – Present

Leading RekAI's charge in AI and web development, specializing in AI chatbots and optimized websites for enhanced business efficiency.

### Key Contributions

- Spearheaded the creation of RekAI, navigating the company toward groundbreaking solutions.
- Successfully integrating AI chatbots, custom knowledgebases, and automated systems, contributing to enhanced functionality for clients.
- Collaborate closely with clients to understand their unique needs, tailoring website designs to align with business goals.
- Implemented cutting-edge techniques in responsive design, ensuring seamless and enjoyable user interactions across devices.
- Conducting continuous market research to identify trends within the industry, ensuring RekAI stays ahead of the curve.
- Keeping up-to-date with new toolsets, leveraging the best options available for optimal results.
- Implemented cutting-edge techniques in responsive design, ensuring seamless and enjoyable user interactions across devices

### Freelance UI/Web Designer & Webflow Developer

Self-employed, Bognor Regis, United Kingdom

February 2018 – Present

As a self-employed UI/Web Designer & Webflow Developer, I've had the pleasure of contributing to diverse projects across industries.

### Key Contributions

- Designed and developed over 20 user-friendly websites, tailoring solutions to meet clients' unique needs.
- Collaborated closely with clients to understand design requirements, ensuring a personalized approach.
- Leveraged Webflow for creating responsive and interactive designs, optimizing the overall user experience.
- Implemented SEO best practices, resulting in improved website performance and enhanced search engine rankings.
